

# ELEMENT 11

ARTS FESTIVAL

# LABYRINTH

JULY 11-14, 2013 GRANTSVILLE, UTAH

# TEN PRINCIPLES OF BURNING MAN

## Radical Inclusion

Anyone may be a part of Burning Man. We welcome and respect the stranger. No prerequisites exist for participation in our community.

## Gifting

Burning Man is devoted to acts of gift giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

## Decommodification

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

## Radical Self-reliance

Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

## Radical Self-expression

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

## Communal Effort

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

## Civic Responsibility

We value civil society. Community members who organize events should assume responsibility for public welfare and endeavor to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

## Leaving No Trace

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

## Participation

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

## Immediacy

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

# ABOUT ELEMENT 11

We began as one of the very first official Burning Man Regional Festivals in the world. Since then we have evolved into a dynamic, year-round, active community whose mission is to ignite a sustainable culture of creativity and self-expression!

To support our mission, our community has formed a 100% volunteer supported 501(c)3 Non-Profit Organization known as Element 11, the same name as our annual festival. We are committed to not only producing a world-class festival the second weekend of July, we are also committed to creating year-round fundraising opportunities, community training programs, social events and service projects. All designed to support and inspire our community of artists and to make a positive difference in the world.

The Board of Directors and community leaders are committed to continue to support the evolution of the Utah Burning Man community of artists. We see art in all forms, in all ways, in all people and in life itself. We provide a canvas for our community near and far to come together. To play, dance, evolve, create & ignite!

We invite you to stay connected with our community.

## LABYRINTH 2013 FIND YOURSELF BY GETTING LOST!

"Your life is a sacred journey. And it is about change, growth, discovery, movement, transformation, continuously expanding your vision of what is possible, stretching your soul, learning to see clearly and deeply, listening to your intuition, taking courageous challenges at every step along the way. You are on the path... exactly where you are meant to be right now... And from here, you can only go forward, shaping your life story into a magnificent tale of triumph, of healing, of courage, of beauty, of wisdom, of power, of dignity, and of love." ~ Caroline Adams

We are all on the path... exactly where we need to be. The labyrinth is a model of that path.

A labyrinth is an ancient symbol that relates to wholeness. It combines the imagery of the circle and the spiral into a meandering but purposeful path. The Labyrinth represents a journey to our own center and back again out into the world. Just as in walking life's path, walking a labyrinth involves intuition, creativity, and imagery.

Labyrinths have long been used as meditation and prayer tools. Labyrinths are used by modern mystics to help achieve a contemplative state. Walking among the turnings, one loses track of direction and of the outside world, and thus quiets the mind.

A labyrinth is an archetype with which we can have a direct experience. We can walk it. It is a metaphor for life's journey. It is a symbol that creates a sacred space and place and takes us out of our ego to "That Which Is Within."

A labyrinth has only one path. It is unicursal. The way in is the way out. There are no blind alleys. The path leads you on a circuitous path to the center and out again.

At its most basic level, the labyrinth is a metaphor for the journey to the center of your deepest self and back out into the world with a broadened understanding of who you are.

# THURSDAY
